Enrich your academic experience and your professional profile by complementing your training with courses from other ESPOL master's degrees and other university centers.

6

EMPLOYABILITY

Alumni from ESPOL have a high employability rate in national and foreign companies.

Faculty of Art, Design and Audiovisual Communication

Creative workers in the domains of art, design, and audiovisual communication are prepared at the Escuela Superior Politécnica del Litoral (ESPOL) through the Faculty of Art, Design, and Audiovisual Communication (FADCOM). The mission of the college is to provide highly skilled, dedicated graduates to meet the demands of the creative and productive sectors of society.

One notable feature of the FADCOM Graduate Program is its creative and excellent academic proposal. Our graduate programs which include the Master of Arts in Branding Transmedia Communication, the Master of Arts in Audiovisual Post-production, Master of Science in Art and Technology, and the Master of Arts in Brand Design, are created to instruct professionals with up-to-date knowledge and practical skills that allow them to stand out in a competitive environment.

We cordially encourage you to become a part of our academic community and enjoy a rich and rewarding experience that will able you with the skills you need to succeed in the workplace and make a major contribution to the advancement of our society.

WELCOME!

Master of arts in **AUDIOVISUAL POST-PRODUCTION**

RCP - SO- 12 -NO.169-2018

Post-production is where the magic of what we see on screens comes to life. It's the stage where audiovisual language is crafted, shaping the messages audiences consume across both digital and analog media.

With this master's degree, you'll gain a strong foundation in the technical aspects of digital post-production, becoming both a skilled professional and a knowledgeable theorist in the field. You'll master advanced techniques in graphics, non-linear editing, animation, sound, color grading, and audiovisual composition, equipping you to excel in this dynamic and creative industry.

MAKE YOUR POTENTIAL SHINE
And make the difference in your professional field

Our Graduate Program

ROUTE TO THE FUTURE

Mission

To cooperate with society, forming creative and innovative professional leaders, with research capacity and critical thinking, who propose solutions in the area of audiovisual communication through advanced tools and techniques of digital postproduction.

Vision

To be a national and international reference in the teaching of advanced audiovisual postproduction techniques and tools, as a key factor for the development of innovative solutions.

ESPOL VALUES

INTEGRITY

We practice ethics in our actions and are accountable for what we do.

COOPERATION

We are a community committed in solidarity to solve the world's problems.

COMMITMENT

We materialize our commitment to quality education, to the well-being of human beings and to the transfer of sustainable solutions at the service of society.

DEDICATION

We do more than what is expected of us with passion and enthusiasm.

INNOVATION

We generate value, looking for new improvements and solutions to solve problems and take advantage of opportunities.

EMPATHY

We demonstrate genuine sensitivity to the needs of our stakeholders and work as a team to meet them.

OPENNESS

We are open to the world, to new experiences, and we welcome valuable people with diverse opinions and perspectives.

Propel your career to new

CREATIVE HORIZONS

Graduate program

Train fourth-level professionals with solid technical knowledge in the field of audiovisual digital postproduction who are capable of applying different techniques advanced in graphics, non-linear editing, animation, sound, colorization, and audiovisual composition through the use of new technologies and the use of new digital formats that allow the transfer of knowledge.

Competencies

- Adapt audiovisual material, applying technological, narrative, and aesthetic principles, including the use of time as an expressive resource in editing.
- Applying concepts, tools, techniques, and procedures of digital postproduction for experimentation projects in the area, including the knowledge of computer programs and audiovisual techniques.
- Create audiovisual projects focused on the functional, historical, aesthetic, and theoretical knowledge of film and video.

Undergraduate student's profile

Master's candidates must have an Ecuadorian third-level university degree, equivalent to a bachelor's degree or engineering, in areas related to audiovisual communication, fine arts, design or multimedia engineering, social communication, advertising, and other related careers. If it's about a professional graduate abroad, they must have a qualification equivalent to a bachelor's degree. This postgraduate degree does not require extensive experience in all fields of post-production digital audiovisual.

Become an expert in the
**AUDIOVISUAL
INDUSTRY**

Graduate program student's profile

Our graduates will be able to: create digital effects on video (VFX); design and animate 3D compositions; analyze 3D animation techniques; mix and master audio; create audiovisual graphics applied to film, television, digital media, and visual events; identify the technology that interferes with editing processes and film, television, and digital media post-production; and generally, develop audiovisual projects. These are just a few of the theoretical and practical skills our graduates will possess after completing the curriculum in audiovisual digital postproduction.
