## ADMISSION PROFILE

Our master's degree aims to professionals who are preferably involved in projects with experience in various economic sectors and who seek to develop skills to take on leadership roles and manage complex projects. Ideal for those in semi-senior or senior positions who wish to strengthen their skills in agile methods, leadership, and strategy.

## GRADUATE PROFILE

Upon completing the master's degree, graduates will be able to:

- Design and present project proposals persuasively, highlighting their value to potential clients and stakeholders.
- Manage the entire project cycle, ensuring client satisfaction and the achievement of objectives.
- Be experts in incorporating international standards into project management, guaranteeing quality and efficiency in execution.
- Excel in effective communication, leadership, conflict resolution, and adaptation—essential skills for successfully leading teams and managing projects.
- Make decisions based on ethics and social responsibility.
