RESUME SUMMARY

With 35 years of teaching experience, I have gone through different areas, starting with computer science, then through administration, entrepreneurship, creativity, and finally through film and audiovisual production. Administratively, I have held positions of academic coordinator, career coordinator, school director, faculty dean and advisor in universities in the field of accreditation, research, and curricular review and designs, as well as in teacher training programs. I participated in the creation of several degree courses at ESPOL such as Graphic Design, Social Communication and Product Design. I like teaching as a fundamental part of my professional career, the orientation and guidance of new generations.
